

**2022 Fall Semester Course Timetable** 2022/06/28 updated

	M	T	W	R	F	S
z			Seminar (required) /Independent Study (required)	Seminar (required) /Independent Study (required)	Seminar (required) /Independent Study (required)	
1						
2 3 4		Optical Electronics @CM218	Electro-Optics @CM218	Introduction to Liquid Crystals @CM215  Polarization and its Applications @CM217	Academic Presentation in English @CM217 Optical Microscopy @CM212 Introduction to numerical methods in optical physics @CM215 Organic Optoelectronic Devices @CM214	
n						
5 6 7	Photonics Laboratory @CM224,219,543	Biophotonics Technology @CM214 Physical Optics @CM215	Physical Chemistry of Materials @CM214 Solid-state Laser Engineering @CM215	Experimental Photonics @CM212	Colloquium @Advantech Hall	
6 7 8			Display Optics @CM217	Organic Materials for Optoelectronic Application @CM214 VLSI Design @CM216		
9						
a b c		Introduction to Biomedical Engineering @CM214 Geometrical Optics @CM224 Energy System Design and Application @CM217	Optoelectronic Organic Chemistry @CM214 Projection Display Technology @CM224	Introduction to Photonics Technologies @CM215		

\*Time: 234→9:00 – 12:00、567→13:20 – 16:20、678→14:20-17:20、abc→18:30-21:20。
